Password: sjbstudent

Designed with both teachers and learners in mind, Espresso Primary has a wide range of interactive, video-rich classroom resources that inspire children to learn.

scratch.mit.edu/

Free programming language and online community where you can create your own interactive stories, games, and animations.

code.org/

Helps your child learn programming thinking skills, and learning through play with logic games!

bbc.co.uk/schools/0/computing/

Computing learning resources for KS1 and KS2

Learning computer programming can help kids develop problem-solving and critical-thinking skills. It also encourages them to be not only consumers of technology but also creators. Check out the FREE apps below.

ScratchJR

Kodable

Daisy the Dino

Bee-Bot

Lightbot

Move the Turtle

Hopscotch

Cargo Bot

E-SAFETY AND SAFEGUARDING

At St John the Baptist Primary school we are committed to promoting the safe and responsible use of the Internet.

Outside of school students need to be guided to appropriate websites. Social network sites such as Facebook should not be accessed by pupils under 13. For access to legal social network sites appropriate to your child's age please follow the advice below:

- Check their profile
- Monitor your child's use and talk to them about safe and appropriate online behaviour—not sharing offensive messages, photos or videos.

Make sure your child understands the following rules:

- Always keep your profile private.
- Never accept friends you don't know in real life
- Never post anything which could reveal your identity
- Never post anything you wouldn't want your parents to see
- Never agree to meet somebody without consent

We'd recommend that all parents and students visit www.thinkuknow.co.uk for more information on using the Internet and mobile phones safely.

[Online Resources /Apps](#)

INTRODUCTION—What are online resources and apps.

As we surge into the modern world St. John the Baptist Primary School is embracing new and engaging learning opportunities presented by tablets and computers. This new technology is interactive, engaging and opens up endless opportunities for learning both inside and outside of school.

Online resources are webpages that provide information, have games, quizzes or videos. These can be accessed from most tablets and computers, if no app is available.

Applications are specifically for tablets and mobile phones and can be downloaded from your devices app store. Most apps are free or have a free option (although some incur a small cost). These can often be played offline.

This leaflet provides you with a selection of apps and online resources, to support your children, in their learning journey for each subject. It is a fantastic way to bring families together, whilst learning new things.

Explore and engage but most importantly have fun!

MATHS

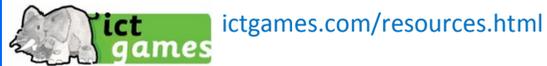

topmarks.co.uk

A range of free educational Maths games for KS1 and KS2.

bbc.co.uk/bitesize

Fun activities to help children learn more about Maths.
